

## IX. PRINCIPLES OF CORPORATE GOVERNANCE AT BANK MILLENNIUM

### IX.1. Statement on the Principles of Corporate Governance Employed in 2013.

„Good Practices in Public Companies on the WSE” adopted by the Board of the Warsaw Stock Exchange constitute a set of Corporate Governance principles to whose observance Bank Millennium was committed in 2013. The fundamental standard of the above-mentioned Good Practices is the „comply or explain” rule, i.e. the duty to publish information in the form of a report, whenever any of the principles described in the “Good Practices” guidelines is not followed. The full text of the “Good Practices” document is available from the WSE website [www.corp-gov.gpw.pl](http://www.corp-gov.gpw.pl) and from the Bank’s website <http://www.bankmillennium.pl/pl/o-banku/wladze-banku-i-lad-korporacyjny/>.

In 2013 Bank Millennium observed all the principles contained in Good Practices, except the one described below.

On 14 March 2013 the Bank transferred in the form of a current report information pertaining to the rule specified in Chapter IV section 10 item 2 of Good Practices pertaining to ensuring to the shareholders the possibility of participation in a General Meeting of Shareholders with the use of real-time online communication, by means of which the shareholders may take an active part in a General Meeting of Shareholders from a different place than the place of meeting.

In the Bank’s assessment the implementation of this rule during a General Meeting carries with itself certain technical and legal risks to the correct and efficient conducting of the General Meeting. In the Bank’s assessment the avoiding of these threats constitutes a bigger value for the shareholders than the implementation of the rule from Chapter IV section 10 item 2 of Good Practices. At the same time the Bank since 2008 has provided real-time internet broadcasting of the proceedings of the General Meeting of Shareholders, in accordance with the requirement specified in Chapter IV section 10 item 1 of Good Practices. At the same time the Bank does not rule out the possibility of ensuring to the shareholders two-way real time communication during the proceedings of a General Meeting, should factual or legal circumstances change.

Otherwise, the Bank fully observed the principles described in Good Practices.

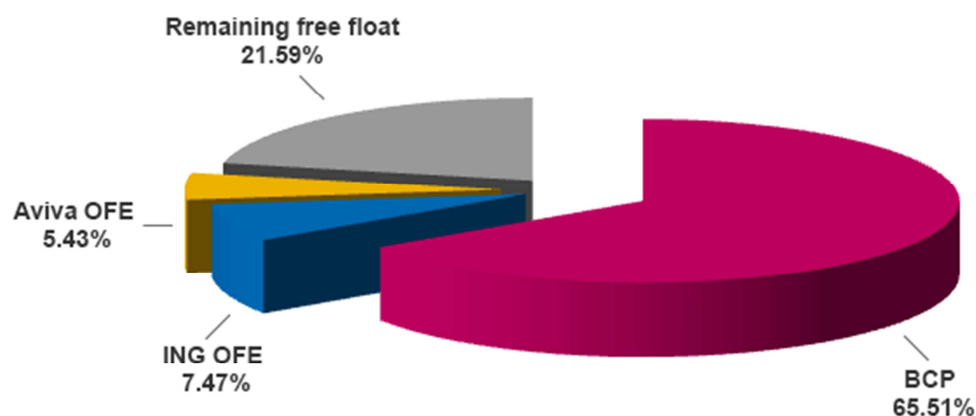

For the 6th time the Bank was included in the RESPECT Index - CEE’s first index of socially responsible companies.

On 31 December 2013 the Index covered 23 companies listed on the Warsaw Stock Exchange. Enterprises from this Index employ best standards regarding corporate governance, information policy, investor relations, as well as in the area of personnel, social relations and environmental protection.

Thanks to holding a majority of votes at a General Meeting of Shareholders BCP may exert decisive impact upon the decisions about the most important corporate issues, such as amendments to the Articles of Association, issue of new shares of the Bank, reduction of the share capital of the Bank, issue of convertible bonds, payment of dividends and other actions that pursuant to the Code of Commercial Companies require a simple or qualified majority at a General Meeting of Shareholders. BCP has also a sufficient number of votes to appoint all the Members of the Supervisory Board, which in turn appoints Members of the Management Board. Due to the above corporate rights BCP is able to exercise significant control over the operations of the Bank.

The Bank is not aware of any agreements concluded between shareholders regarding their mutual cooperation and the Bank is not aware of any agreements that, in future, might cause changes in the proportions of shares held by existing shareholders.

The Bank's shareholders exercise their rights in the way and within the boundaries defined by effective laws, the Articles of Association of the Bank as well as the Bylaws of the General Meeting of Shareholders. Each share of the Bank entitles to one vote, however registered founding shares in the outstanding number of 62,200 are preferential in as much as one share entitles to two votes at a GMS. Registered founding shares in total accounted for 0,0051% of the Bank's share capital and 0,0102% of the total number of votes at a General Meeting, as on 31 December 2013.

Founding shares are subject to disposal restrictions, i.e. their disposal subject to a consent of, at least, three fourths of the founders, to other founders does not result in their loss of preferential status. **IX.5. Internal Control, External Audit and Compliance Policy**
***Internal Control System***

The Bank has an internal control system adjusted to the organisational structure whose scope covers the organisational units of the Bank's head office, branches and subsidiaries. This system comprises internal control procedures defined in the form of internal control regulations, internal control byelaws for particular units of the Bank, and internal control mechanisms which cover among others control principles, limits and procedures, and any other types of operations whose purpose is to control the quality and correctness of the tasks implemented at the Bank.

The Internal Audit Department is a specialist unit of institutional control whose purpose is an independent and objective assessment of adequacy, correctness and effectiveness of the internal control and management systems, including risk management. In particular, this is connected with the assessment of quality, correctness and security of running banking operations. In implementing its mission Internal Audit takes into account strategic objectives and tasks of the organisation specified by the Management Board and Supervisory Board of the Bank. The audit process is implemented according to the Internal Audit Methodology incorporating international standards of internal audit and good banking practices.

The activity of Internal Audit is planned and based on an annual audit plan. The basis of the planning process is the assessment of risk of particular areas and processes at the Bank in order to identify increased risk and support the specification of priorities and resources for the implementation of tasks. The planning process takes into account consultations with higher rank management and owners of key processes. The annual audit plan is approved by the Audit Committee of the Bank's Supervisory Board is implemented in a quarterly breakdown by experienced and highly qualified professionals.

Internal audit is consulted about regulations being implemented and updated at the Bank, it independently and objectively assesses and advises to particular units with respect to the audited area and builds positive relations with audited units in order to work out common added value to streamline the Bank's operations. Advisory activities can be provided, if they do not undermine the objectiveness and independence of the internal auditor.

In 2013 the Internal Audit Department implemented tasks at the Bank, the Bank's subsidiaries, external entities to which the Bank, to the extent permissible by regulations, outsourced banking and bank-related operations, as well as within the Millennium bcp Group. The planned activity of the Department covered among others audits of key business and support processes, as well as financial audits, outlet audits and those of compliance with external regulatory environment. The tasks performed by the Internal Audit Department also include

investigations and spot checking (prevention). In 2013 the activity of the Internal Audit Department was covered by independent external assessment conducted PricewaterhouseCoopers Sp. z o.o.

The Internal Audit Department is an independent unit reporting to the Chairman of the Management Board of the Bank and the results of its activities are reported by it to the Audit Committee of the Supervisory Board and the Supervisory Board of the Bank. The results of a review of the entire internal control system are also regularly presented and reviewed by the Audit Committee of the Supervisory Board of the Bank.

#### ***Internal Control System with respect to the Process of Preparing Financial Reports***

Described above solutions regarding internal control system protect to a significant extent the Bank from financial reporting errors and provide the Bank Management with information enabling the evaluation of the correctness, efficiency and security of preparation of financial reports also in order to ensure the highest possible effectiveness in managing identified risks accompanying the process.

The internal control system, introduced by the Management Board of the Bank and incorporating the financial report preparation process, has been designed to facilitate the controlling of process risk while maintaining appropriate supervision of correctness of the gathering, processing and presentation of data necessary for preparation of financial reports in keeping with effective laws.

According to effective laws, the Bank's reports (non-consolidated) and those of the Bank Capital Group (consolidated) are subject to, respectively: review (semi-annual statements) or audit (annual statements), performed by an independent entity authorised to audit financial statements - i.e. the External Auditor. The External Auditor is selected by the Supervisory Board on the basis of a recommendation issued by the Audit Committee of the Supervisory Board. In addition, considering the quality of financial data presented in remaining published quarterly reports, the Bank, jointly with the External Auditor, implemented cooperation procedures ensuring the consultation of important issues connected with recognition of economic events in the Bank accounts and financial reports, on a current basis. At the meetings of the Audit Committee of the Supervisory Board the External Auditor presents key findings relative to financial reporting. Furthermore, the external auditing firm and advisor selected, independently, by the Management Board i.e. company Deloitte Audyt Spółka z o.o. also performed, in 2013, a review of the adequacy and effectiveness of the part of the Bank's internal control system supporting the financial information preparation and publication process (financial reporting) and issued relevant opinions. In 2013, the Bank's External Auditor was KPMG Audyt Spółka z ograniczoną odpowiedzialnością Spółka Komandytowa (in previous years: KPMG Audyt Sp. z o.o.). In October 2013 the Supervisory Board decided to replace the Bank's External Auditor, which in 2014 will be the company PricewaterhouseCoopers Sp. z o.o.

The Bank is covered by the consolidated financial statement of the BCP Group. In connection with this, the annual review of the Bank's system of internal control in support of the process of preparing and publishing financial information is subject also to the terms and requirements of consolidated supervision, which is Bank of Portugal.

## X. RESPONSIBLE BUSINESS AND CORPORATE SOCIAL RESPONSIBILITY

Compliance with the principles of corporate social responsibility of Bank Millennium Group is one of the foundations of its activity. Declarations concerning corporate social policy were reflected both in the 2012 updated medium-term growth strategy for the years 2013-2015 as well as when preparing activity plans in individual areas of the Bank's operation. The Bank considers continuation of growth in a sustainable way as well as cooperating with Customers on the basis of trust, respect and observance of rules, to be particularly important.

Implementing CSR policy the Bank attaches special importance to building long-term relations with the most important groups of its Stakeholders: Customers, Employees, Suppliers, Shareholders, Social Partners and local communities. Equally important is monitoring and mitigating the adverse environmental impact of the Bank.

As announced in 2012 the Bank proceeded in 2013 to implement the Code of Ethics, which lays down the principles of ethical conduct of the Group's Employees during performance of professional duties. The Bank also provided e-learning training about the Code of Ethics to all Employees.

In its CSR activity the Bank cooperated with the "Wspólna Droga" (United Way) foundation to organise community volunteering programmes for the Bank's Employees. The Bank also cooperated with WWF, issuing a payment card, which supported the foundation with part of the fees it generated. In 2013 the Bank's representatives attended consultation meetings, conferences and training arranged by government and non-government institutions, which promote CSR in Poland.

In March 2014 the Bank will issue the eighth edition of the "2013 Responsible Business" report. The Report will be available in printed and electronic format, in Polish and English language versions. The Bank considers cooperation with non-governmental and community institutions to be an important part of its social mission. The key areas of cooperation with them are:

- Culture
- Education
- Charity

Cultural activity has for years been the most important part of Bank Millennium's social activity. It is planned on the basis of medium-term action plans and following assumptions:

- It takes place on the programming level only (the Bank does not support institutions, but exclusively selected programmes, which the institutions are implementing)
- The Bank prefers to cooperate under long-term programmes with clearly defined goals
- The Bank prefers high culture programmes
- The Bank strives to make the programmes it supports available to the general public also through the media (television reports, television rebroadcasts, radio broadcasts, publications, discs, media coverage)

In cultural programmes the Bank partners-up first of all with cultural institutions and non-governmental organisations (foundations, associations) and the media.
