

IX. PRINCIPLES OF CORPORATE GOVERNANCE AT BANK MILLENNIUM

IX.1. Statement on the Principles of Corporate Governance Employed in 2014.

„Good Practices in Public Companies on the WSE” adopted by the Board of the Warsaw Stock Exchange constitute a set of Corporate Governance principles to whose observance Bank Millennium was committed in 2014. The fundamental standard of the above-mentioned Good Practices is the „comply or explain” rule, i.e. the duty to publish information in the form of a report, whenever any of the principles described in the “Good Practices” guidelines is not followed. The full text of the “Good Practices” document is available from the WSE website www.corp-gov.gpw.pl and from the Bank’s website <http://www.bankmillennium.pl/en/about-the-bank/corporate-bodies-and-governance>

In 2014 Bank Millennium observed all the principles contained in the Good Practices except one rule provided for in Chapter IV section 10 item 2 of Good Practices, regarding ensuring the shareholders with opportunity to participate in General Meetings of Shareholders („GMS”) with the use of real-time online two-way communication, by means of which the shareholders may take an active part in a General Meeting of Shareholders from a different place than the place of meeting. In the Bank’s assessment the implementation of this rule during a General Meeting carries with itself certain technical and legal risks to the correct and efficient conducting of the General Meeting. In the Bank’s assessment the avoiding of these threats constitutes a bigger value for the shareholders than the implementation of the rule from Chapter IV section 10 item 2 of Good Practices. At the same time the Bank since 2008 has provided real-time internet broadcasting of the proceedings of the GMS, in accordance with the requirement specified in Chapter IV section 10 item 1 of Good Practices. At the same time the Bank does not rule out the possibility of ensuring to the shareholders two-way real time communication during the proceedings of a General Meeting, should actual or legal circumstances change.

Otherwise, by applying due diligence in establishing corporate and investors’ relations, Bank Millennium, as a company listed on WSE, complied, in 2014, with standards of Good Practices. The Bank strives to ensure the highest transparency of its activities, proper communication with investors and protection of shareholder rights also in materials not regulated by effective laws.

From the beginning of 2015, the Bank, as a financial institution, is also subject to the Principles of Corporate Governance for Institutions Supervised by the Polish Financial Supervision Authority (Principles), as accessible from the KNF website www.knf.gov.pl

In December 2014 the Bank’s Management Board and the Supervisory Board passed resolutions on application of the Principles, with the exception of those stipulated in:

- 1) § 8 sec. 4 - principle demanding the possibility of electronic active participation in the GMS,
- 2) § 16 sec. 1 and § 24 sec. 1 - rules concerning holding of meetings of the Bank’s governing bodies (Management Board and Supervisory Board) in Polish.

The Bank’s position that there is no possibility of electronic active participation in a GMS is consistent and reiterates the Bank’s position previously expressed with respect to a principle existing in the Good Practices, referred-to above.

With respect to the principle of holding meetings of the Management Board and Supervisory Board in Polish the Bank has taken position that the knowledge of the English language by the Management Board Members enables full mutual understanding and an appropriate level of communication during meetings. Furthermore the practically applied rule of holding Supervisory Board meetings both in Polish as well as in English, with necessary assistance provided by an interpreter, also enables full mutual understanding and an appropriate level of communication.

The Management Board and the Supervisory Board decided to apply to the GMS, approving the financial statement for the year 2014, in the matter of the Principles addressed to Shareholders.

In the reporting period, the Bank was, for the seventh consecutive time, listed among RESPECT Index companies („Index”) - the Central and Eastern Europe’s first index of socially responsible companies. In the course of review conducted in December 2014, the RESPECT Index incorporated only 24 companies from amongst the entire population of businesses listed on WSE. Enterprises incorporated in the said Index operate on the basis of the best corporate governance standards, information policy, investor relations and in the area of employee matters, social relations and environment protection.

With respect to ING OFE the number of shares and their participation in the Bank's share capital were calculated on the basis of the Annual Structure of ING OFE assets as of 31 December 2013 and 31 December 2014 (published on the website: www.ingofe.pl). As a majority shareholder Banco Comercial Portugues S.A. („BCP”), exercises its shareholder's rights stipulated in the Code of Commercial Companies and the Bank's Articles of Association. BCP exercises corporate control over the Bank. By holding a majority of votes at a General Meeting of Shareholders BCP may exert decisive impact upon the decisions about the most important corporate issues, such as amendments to the Articles of Association, issue of new shares of the Bank, reduction of the share capital of the Bank, issue of convertible bonds, payment of dividends and other actions that pursuant to the Code of Commercial Companies require a simple or qualified majority at a General Meeting of Shareholders. BCP has also a sufficient number of votes to appoint all the Members of the Supervisory Board, which in turn appoints Members of the Management Board. Due to the above corporate rights BCP is able to exercise significant control over the operations of the Bank.

The Bank is not aware of any agreements concluded between shareholders regarding their mutual cooperation and the Bank is not aware of any agreements that, in future, might cause changes in the proportions of shares held by existing shareholders.

The Bank's shareholders exercise their rights in the way and within the boundaries defined by effective general laws, the Articles of Association of the Bank as well as the Bylaws of the General Meeting of Shareholders. Each share of the Bank entitles to one vote, however registered founding shares in the outstanding number of 62,200

are preferential in as much as one share entitles to two votes at a GMS. Registered founding shares in total accounted for 0.0051% of the Bank's share capital and 0.0102% of the total number of votes at a General Meeting, as on 31 December 2014.

Founding shares are subject to disposal restrictions, i.e. their disposal subject to a consent of, at least, three fourths of the founders, to other founders does not result in their loss of preferential status. A disposal of registered founding shares in all other cases causes loss of their preferential status. There are no restrictions on exercising voting rights under the Bank's shares and none of the holders of securities issued by the Bank has any special controlling rights with respect to the Bank.

IX.5. Internal Control, External Audit and Compliance Policy
Internal control system

The Bank has an internal control system adjusted to the organisational structure whose scope covers the organisational units of the Bank's head office, branches and subsidiaries. This system comprises internal control procedures defined in the form of internal control bylaws for particular units of the Bank, and internal control mechanisms which cover, among others, control principles, limits and procedures, and any other types of operations whose purpose is to control the quality and correctness of the tasks implemented at the Bank.

The Internal Audit Department is a specialist unit of institutional control whose purpose is an independent and objective assessment of adequacy, correctness and effectiveness of the internal control and management systems, including risk management. In particular, this is connected with the assessment of quality, correctness and security of running banking operations. In implementing its mission Internal Audit takes into account strategic objectives and tasks of the organisation specified by the Management Board and Supervisory

Board of the Bank. The audit process is implemented according to the Internal Audit Methodology fostering international standards of internal audit and good banking practices.

The activity of Internal Audit is planned and based on an annual audit plan. The basis of the planning process is the assessment of risk of particular areas and processes at the Bank in order to identify increased risk and support the specification of priorities and resources for the implementation of tasks. The planning process takes into account consultations with higher level management and owners of key processes. The annual audit plan is approved by the Audit Committee of the Bank's Supervisory Board and implemented on a quarterly basis by experienced and highly qualified professionals.

Internal audit provides opinions on regulations being implemented and updated at the Bank, it independently and objectively assesses and advises particular units with respect to the audited area and builds positive relations with audited units in order to work out common added value to streamline the Bank's operations. Advisory activities can be provided, if they do not undermine the objectiveness and independence of the internal auditor.

In 2014, the Internal Audit Department implemented tasks at the Bank, the Bank's subsidiaries, external entities to which the Bank, to the extent permissible by regulations, outsourced banking and bank-related operations, as well as within the BCP Group. The planned activity of the Department covered among others audits of key business and support processes, as well as financial audits, outlet audits and those of compliance with external regulatory environment. The tasks performed by the Internal Audit Department also include investigations and spot checking (prevention). The Internal Audit Department is an independent unit reporting to the Chairman of the Management Board of the Bank and the results of its activities are reported by it to the Audit Committee of the Supervisory Board and the Supervisory Board of the Bank. The results of a review of the entire internal control system are also regularly presented and reviewed by the Audit Committee of the Supervisory Board of the Bank.

Internal Control System with respect to the Process of Preparing Financial Reports

Solutions described above regarding internal control system protect to a significant extent the Bank against financial reporting errors and provide the Bank Management with information facilitating evaluation of preparation of financial reports or its correctness, efficiency and security in order to ensure the highest possible effectiveness in managing identified risks accompanying the process.

The internal control system, introduced by the Management Board of the Bank and incorporating the financial report preparation process, has been designed to facilitate the controlling of process risk while maintaining appropriate supervision of correctness of the gathering, processing and presentation of data necessary for preparation of financial reports in keeping with effective laws.

According to effective laws, the Bank's reports (non-consolidated) and those of the Bank Capital Group (consolidated) are subject to, respectively: review (semi-annual statements) or audit (annual statements), performed by an independent entity authorised to audit financial statements - i.e. the External Auditor. The External Auditor is selected by the Supervisory Board on the basis of a recommendation issued by the Audit Committee of the Supervisory Board. In addition, considering the quality of financial data presented in remaining published quarterly reports, the Bank, jointly with the External Auditor, implemented cooperation procedures ensuring the consultation of important issues connected with recognition of economic events in the Bank accounts and financial reports, on a current basis. At the meetings of the Audit Committee of the Supervisory Board the External Auditor presents key findings relative to financial reporting. Furthermore, the external auditing firm also performed, in 2014, a review of the adequacy and effectiveness of a part of the Bank's internal control system supporting the financial information preparation and publication process (financial reporting) and issued relevant opinions. In 2014 the Bank's External Auditor was PricewaterhouseCoopers Sp. z o.o. In October 2014, the Bank Supervisory Board decided to select PricewaterhouseCoopers Sp. z o.o. to be the Bank's External Auditor in 2015. The Bank is covered by the consolidated financial statement of the BCP Group. Therefore, the annual review of the Bank's system of internal control in support of the process of preparing and publishing financial information is also subject to the terms and requirements of consolidated supervision, which is performed by the Bank of Portugal.

- identification of suspected transactions,
- cooperation with the General Inspector of Financial Information.

Bank Millennium adjusts its reports to the analysis of suspected transactions on the on-going basis, taking into account up-to-date patterns (sectors, cash-flow routes, Customer behaviour) for effective identification and reporting of transactions suspected of money laundering.

Our internal procedures, organisational solutions and employee training programmes ensure efficient operation of the Programme.

With view to protecting Clients who invest their funds in investment products with varied degree of risk, Bank Millennium strictly monitors compliance of these products, their offering and handling process with relevant internal regulations, laws and external guidelines - on the domestic and European Union level (MiFID).

X. RESPONSIBLE BUSINESS AND CORPORATE SOCIAL RESPONSIBILITY

Bank Millennium Group considers activity in compliance with the principles of corporate social responsibility to be one of the fundamental values of its operation. CSR declarations were reflected both in the 2012 updated medium-term strategy of development for the years 2013-2015 as well as in the latest medium-term strategy for 2015-2017, published already after the end of 2014 (on 2 February 2015). These goals were also taken on board when building operational plans for the various areas of the Bank's activity. The Bank considers as particularly important to continue its growth in a sustainable way, with consideration of its impact upon the society and the environment as well as cooperation with stakeholders, based on dialogue, trust and observance of rules and principles.

The Bank attaches special importance to building long-term relations with its key Stakeholders: Customers, Employees, Suppliers, Shareholders, Social Partners and Local Communities. Just as important, in fact increasingly so, is monitoring and mitigating the Bank's adverse impact on the natural environment.

In 2013 the Bank implemented its Code of Ethics, which lays down the principles of ethical conduct of Group Employees during performance of professional duties. The principles of the Code of Ethics were communicated to all employees and awareness of them was checked by means of obligatory e-learning training. In 2014 the Bank also required its suppliers to comply with the Code of Ethics. When bidding for tendered contracts every supplier must sign a statement of compliance with the ethical principles of the Code.

An important part of the Bank's social activity is stimulating and organising employee volunteering. In 2014 together with the "United Way" foundation the Bank organised three community programmes involving employees. The employees also regularly participate in the BAKCYL youth financial education programme, which is carried out by Warsaw Banking Institute. Moreover the Bank continued to work with the WWF Foundation by issuing a card, which had part of its fees supporting the Foundations main goals. The Bank's representatives attended consultation meetings, conferences and training sessions in 2014, which were organised by government and non-government institutions working to disseminate CSR in Poland.

The Bank annually reports on its Corporate Social Responsibility activities. In March 2015 the Bank will issue the ninth annual edition of the Responsible Business report. The report will be available in electronic format in Polish and in English. The content and structure of the report satisfies criteria provided for such reporting by the Global Reporting Initiative Sustainability Guidelines (GRI G4). The report will define key aspects of the Bank's influence on sustainable economic, social and environmental development with respect to key groups of Stakeholders: Customers, Employees, Shareholders, Business Partners, the Society as well as the Natural Environment.

In 2015 the Bank will be striving to update its CSR policy and to develop a medium-term CSR strategy for Bank Millennium Group. It is also planned to involve more Stakeholders in CSR activity, with particular consideration of business partners/suppliers.

In 2014 the Bank was yet again included in the RESPECT Index - Central and Eastern Europe's first index of socially responsible companies listed on the Warsaw Stock Exchange and was also recognised in the nationwide "Ranking of Responsible Companies".
